MATERIAL HANDLING FOR ELECTRIC VEHICLE (EV) PARTS MANUFACTURERS

As automotive companies shift to producing electric vehicles, Salco has followed suit to meet their changing needs. We can keep your sensitive parts protected in our custom baskets, carts, and dunnage. Get in touch today to learn more about what Salco can do for you.

FULLY CUSTOM RACKS & CARTS

Salco carts are built for heavy-duty use in manufacturing plants and production lines. Our industrial material handling carts are constructed of all-welded channel steel with heavy-duty casters and wheels. They are fully customized to always keep your parts secure.

◆ Completely Custom

We design our carts to meet your specific needs.

◆ Endless Applications

From simple basket dollies to complex oil drainage racks, our racks are a perfect fit.

WIDE VARIETY OF SKILLS & PRODUCTS

Custom carts, baskets, and everything in between. Visit salcoeng.com for more information about our range of products and services.

3D PRINTING

3D PRINTING SPECIALISTS

Salco specializes in complex design work and prototyping for all types of projects, with the ability to quickly build physical samples for customer approval. Salco uses SolidWorks software for design and a Stratasys Fortus 450mc for 3D printing. We have the ability to print in high temp ULTEM material, which is ideal for quick turnaround tooling. Our many years of experience promises craftsmanship and care for all of our projects.

We're Ready to Help With Your Next Project
